

Family to Family Course Screening Questions

Guidelines:

- The Family to Family course is designed for people who have someone in their “family”, or who they are close to, that has a mental illness.
- The course is not for the person who has the mental illness. Someone with a mental illness can take the course, but must have a loved one with mental illness that is the reason they are attending and must participate in the role of a family member.
- The course is not appropriate for someone who has a young child under 15yrs old who has a mental illness, refer them to NAMI NH to register them for a Parents Meeting the Challenge program.
- No one under the age of 1 can take the course unless accompanied by a parent.
- The course does not address Alzheimer’s
- If it appears as though substance abuse is the primary and presenting issue, this course may not be appropriate.
- And, as always, if you have any questions please call Liz 603-225-5359 ext. 322, it can be helpful to talk it out.
