RE: NAMI NH Support for HB 583

Chairman Ladd and Committee Members:

Thank you for the opportunity to submit written testimony. My name is Sam Hawkins, and I am the Public Policy Assistant at NAMI NH, the National Alliance on Mental Illness. NAMI NH is a non-profit, grassroots organization whose mission is to improve the lives of all people impacted by mental illness and suicide through support, education and advocacy. On behalf of NAMI NH, I am writing in support of HB 583, relative to state participation in the Medicaid direct certification program for free and reduced price school meals.

The social determinants of health are a variety of complex factors that contribute to an individual's health and wellbeing, including their mental health. One key determinant is food security.

When our basic needs are not met, it makes it more difficult to maintain all aspects of our health, including our mental health. In this way, food insecurity can lead to stress, anxiety, and other poor health outcomes.

Just as food insecurity may affect mental health, one's mental health can also impact their ability to work and afford food for themselves and their families. Research by the Department of Agriculture (USDA) found that adults with a mental health disability are up to five times more likely to live in a household that is food insecure. By addressing food insecurity and other social determinants of health, we have the opportunity to ensure that individuals and their families have the chance to get and stay well.

Find Help, Find Hope.

HB 583 is one important step the legislature can take to address food insecurity impacting school-aged youth and improve their mental health and overall wellness. For these reasons, NAMI NH urges the committee to vote Ought to Pass for HB 583.

Sincerely,
